Global Conference on Advances in
Business and Social Sciences (GCABSS – 2020 Online)

Comments and Questions
GCABSS 2020
Paper No. 201206

Comment 1
I am a bit confused by the language and design of the proposed paper. Our dear author seems to be making tall claims and is trying to bring in any and everything into one single article. I don't think that is very practical and plausible with the length of an ordinary paper. I would recommend the author be more focused on his/her thoughts, take advice from some supervisor or a solid researcher, and then prepare a focused and written research.

Comment 2
Wonderful thoughts and charitable ideas. But I must admit that I have a headache trying to understand the concepts presented in the paper. It is fine to bring in CSR and other value-related issues into pure medical or economic matters, but then there is always a modicum of doing something. But I am confused about how our presenter will bring all disjointed issues together and make an understandable piece of writing based upon some fine analysis using some scientific methodology. I can understand that the writer is trying to think big but thinking big is not the only ingredient of a big and significant writing piece.

Comment 3
The authors' critique of Covid-19 related issues unfounded and not ground itself in any understandable scientific thought. I guess the author himself is a bit influenced by anti-Covid propaganda on social media. I would advise the author to take a neutral position if he thinks of growing into a solid researcher.

Question No. 1
Please explain how you will adhere to moral values in an economic model?

Question No. 2
Why are you so critical of the medical aspects of the Covid-19?

Question No. 3
What is your basic research question?

Question No. 4
I did not find any explanation of your research methodology; can you please explain that better?

Replies by authors: Dec. 5-15

Issue of certificates: Dec. 20-
